Dear Joshua -

I have to go up to D.C. on family affairs, and will accordingly plan to visit Madison en route from Seattle. Tentatively, I will get to Portage, Wis. on the Hiawatha at 10:50 AM. on Tues Jan. 20. I take it that there is a good bus service from there to Madison. How about scheduling the seminar for the next day? The title would be: "The bacterial oxidation of tryptophan: a comparative study".

Please let me know as soon as possible if this is O.K. Mike has some data on the coli mutants that I want to tell you about, so remind me.

Best wishes, Roger

P.S. Tell Quin I expect him to cook a dinner for me.
